

# WASTELINE

Fauquier County Environmental Services

December 2017

## New Transfer Building Opens

The new Transfer operation has been running smoothly for a few weeks. The Transfer operation was constructed in order to extend the life of the Corral Farm landfill for several decades.

## In This Issue

- New Transfer Building Opens
- Corral Farm Improvements
- Dates to Remember/Vacancies
- Inclement Weather
- Christmas Tree Disposal
- Commercial Renewals
- Wrapping Paper
- Hours of Operation

## Corral Farm Collection Site Improvements

The Corral Farm Collection Site received several improvements during the recent construction. Three traffic lanes are available for small items and bagged waste. HHW has its own outside lane for collection days, and two bulk waste containers were added. These changes will improve traffic safety, and increase hauling efficiency to reduce operating costs.

The final phase of construction will be improvements to our entrance lanes, and is planned for 2018.

## Wrapping Paper... To Recycle or Not to Recycle?

Many of the materials used to create specialty wrapping paper include dyes, laminations, non-paper additives like glitter, foil or plastic, and tape. All of these added materials make most wrapping papers NON-Recyclable. If you would rather not worry about your wrapping paper ending up in a landfill, be creative and use basic craft paper, newspapers, or old maps. By adding stamps, stencils, or drawings to the wrapping, your gifts will be truly unique.

## Commercial Permit Renewals

Our commercial customers should have received their renewal paperwork last month. Please contact the office at (540) 422-8840 if you did not. The renewal fee is due by January 15th or the account will be subject to a late fee.
